I am appalled and am embarrassed at the leadership of the osage minerals council. All osage indians must unite and side with producers on this crazy new legislation. This will destroy the oil business in the osage. This will b known as the ultimate "dog that bites the hand that feeds him. "Sonny abott must b disregarded for he has no experience in oil business besides cashing checks. Beware or your leadership Osage indians. Yoyn leadership is taking u into poverty like u 've never seen.
Sincerely Mark CLEMISHIRE ;oil producer for 30 years thank you!
